**RHINELANDER.**

The county seat of Oneida county, is an incorporated city of 5,500 people. It is the most northerly city on the Wisconsin river, and is the center of the lumbering district of that valley. It is 254 miles north of Milwaukee, and 214 miles east of Minneapolis. It is the principal city on the Soo Line between Minneapolis and the Soo, and the principal one of the Chicago & Northwestern Ry. in that section of the state. It is a great manufacturing center, and turns out upwards of 85,000,000 feet of lumber annually. It has a number of saw and planing mills, a refrigerator factory, brewery, paper mill, boat factory and many manufacturing establishments working up lumber, and a boiler shop and iron works. Its schools are excellent, and the six school buildings are modern and handsome. The churches are 10 in number. The city has a fine system of water works, with standpipe pressure and hydrants. The streets are well illumined by arc lights and the private lines use over 4,000 incandescent electric lamps. The city has fine business houses and the largest number of handsome home of any city in Northern Wisconsin. The civic societies are well represented. It has uniformed, salaried, hook and ladder and hose companies, and a complete system of electrical fire alarms. There are two fine opera houses, with a joint seating capacity of nearly 2,000, and three newspapers, the New North (Rep.), the Rhinelander Herald (Dem.), and the Vindicator (Rep.) It has two banks with a combined capital of $100,000. Was first settled in 1882. Has telephone exchange. Am. and Western Exp., and Western Union and Postal Telegraph offices. It is the great supply center of Northern Wisconsin for logging and lumbering operations. F. E. Parker, postmaster.

## SHEBOYGAN.

Population, 26,000. The county seat of Sheboygan county, is advantageously located at the mouth of the Sheboygan river, on the shore of Lake Michigan, and on the C. & N. W. Ry., 52 miles north of Milwaukee. It was incorporated in 1853, and has had a substantial growth. Early in the history of the city attention was turned to manufacturing. There was an abundance of energy but limited capital, therefore the first beginnings were necessarily small. Insignificant as they were, however, they were the cornerstones of the future prosperity of the city. Two small tanneries, started in the early sixties with a few hands, have gradually expanded and enlarged into large, handsome plants, furnishing employment for upwards of six hundred hands. From an insignificant factory started in the sheds of the S. & F. R. R., there have sprung up five mammoth chair plants, employing between 2,500 and 3,300 hands, and giving Sheboygan the proud distinction of being the banner chair town of the United States. A small bedroom furniture factory, started in much the same way, has on its pay roll 1,000 hands, and turns out several car loads of furniture daily. To sum up, there are between 5,500 and 6,000 hands on the pay rolls of the different manufacturing establishments, and the monthly pay roll falls between $225,000 and $250,000. There are 5 chair factories, with an output of 5,000 finished chairs daily, the Sheboygan Cigar Mold Co., manufacturing cigarmakers' supplies, basswood and elm lumber; 2 large tanneries, a bedroom furniture factory, using 40,000 feet of lumber daily, 2 desk and book case factories, a toy factory, a bee hive factory, 2 carriage factories, 2 boot and shoe factories, 2 woodenware factories, 2 breweries, 3 planing mills, 2 large enameling works, 5 machine shops, three of which have foundries attached, a boiler factory, a factory for the manufacture of office and household furniture, folding bed factory, wire mattress factory, musical instrument factory, cigar factories, 2 soap factories, wrapper factory, creamery, large factory for bottling and exporting the famous Sheboygan mineral water, a shipyard, a modern floating dock, large coal docks, 3 banks, several fisheries, shipping large quantities of fish, 3 brick yards, large and commodious business blocks and handsome residences. Chicago rate for freight to Missouri river points prevail. There are 19 churches, representing the leading religious denominations. The educational facilities are of a superior order, and the city is becoming notably prominent for the liberal and careful manner in which such matters are supported and maintained. The city is lighted by gas and electricity, has 9 miles of electric street railway service, an excellent system of water works, paid fire and police departments, 3 daily, 4 weekly and 2 semi-weekly newspapers, 2 telephone exchanges, first-

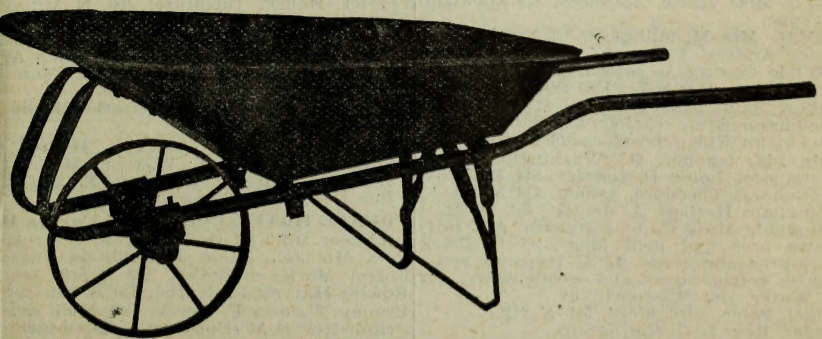
Agents for UNION STEAM PUMP COMPANY.



The above cut is a fair representation of our latest product in wheelbarrows which is intended for dling coal, ashes, etc. The capacity of trays are made from 250 to 400 lbs. as desired. The weight of a 400 acity coal barrow is approximately 115 lbs. and the smaller in proportion.

The whole barrow is of metal, the frame forming also the handles are made of tubing and securely riveted rays on front sides. Steel plates are used in construction of the tray, the outer edge of which is flanged to e it the proper stiffening.

The legs, braces and heel are made of wrought iron, thus securing the combination of great strength, dura- ty and comparative lightness. We are also in a position to furnish upon short notice any special design rows. Prices upon application.

## SHEBOYGAN FALLS.

Population, 1,500. An incorporated villge located in Sheboygan county, on the Sheboygan river, and on the C. & N. W. Ry., 5 miles west of Sheboygan, the county seat. Incorporated as a village in 1854, it has had a substantial growth, and now contains the largest woolen mill in the State, a large tannery, 2 machine shops, toy wagon factory, chair factory, planing mill, farm implement manufactory, lime kiln, 2 banks, 1 newspaper, 5 churches, a high school library of about 400 volumes, an excellent electric light plant of the very latest pattern, owned and operated by C. S. Weisse & Co., an opera house seating capacity 600, and the usual number of stores, etc., with probably more tributary cheese factories than any village in the State. The river at this point, by a series of rapids, offers an available water power of 35 feet head in 3 dams, but the water supply compels manufacturers to use steam also. Cheese, woolen goods, agricultural implements, lime, grain and farm produce constitute the principal shipments. The village is connected with Sheboygan by an electric street railway; cars run every forty minutes. Telephone connection. Tel., Postal and Western Union. Exp., Am. Byron H. Sanford, postmaster.

### SOUTH MILWAUKEE.

Population, 4,000. An incorporated city situated on the C. & N. W. Ry., and on Lake Michigan, 10 miles south of Milwaukee. In 1891 a company was organized to develop the town. The land at that time was a farm, the first plat was put on the market, and the first lot sold October 18, 1891, and in three months the entire plat was sold. The first factory was built and commenced operations about May 1st, 1892. It now has among its manufacturing institutions a furniture factory, a foundry, a flour mill, a mineral wool factory, farm implement manufactory, horseshoe manufactory, distillery, the Stowell Mnfg. and Foundry Co., a steam shovel and dredge manufactory, basket and box factories, etc. The city is lighted by electricity, has good hotels, a national bank, two newspapers, the South Milwaukee Journal and South Milwaukee Times-News, and the usual quota of stores and good schools. The religious denominations are represented as follows: Catholic, Congregational, Evangelical, German Lutheran and Episcopal. Is connected by electric railway with Milwaukee, Racine and Kenosha. Telephone connections. Tel., W. U. Exp., Am. John C. Williams, postmaster.

## STEVENS POINT.

Population, 10,500. The judicial seat of Portage county, is located on both sides of the Wisconsin river, and on the Wis. Central Ry., and the G. B. & W. Ry. (depots 1½ miles apart), 87 miles west of Green Bay, and 158 northwest of Milwaukee. Lumbering is one of the principal industries, the city being located at the base of the Upper Wisconsin pineries, as well as those of the headwaters of the Chippewa, Black and Flambeau rivers. It is surrounded by an excellent farming country in the midst of the greatest potato producing section in the west; is lighted by electricity, has an excellent system of water works, a paid fire department, police force, first-class hotels, telephone exchange, 3 banks, and all the appointments and facilities of a modern commercial center. There are Adventist, Baptist, Catholic, Episcopal, German Evangelical, German Methodist, Lutheran, Methodist, Norwegian Lutheran, and Presbyterian churches, high and graded public schools, a large public library and the Sixth Normal School, costing $150,000, the finest educational structure in the state, with the exception of the State University at Madison. The press is represented by the Daily and Weekly Journal, the Gazette, and the Rolnik (Polish). Among its more prominent industries are 2 large paper mills, wall paper factory, automatic rocking cradle factory, foundry and machine shops, gasoline engine works, fishing tackle factory, furniture factory, table and desk factory, box factory, sash, door and blind factory, etc. The natural water power here is surpassed by but few places in the west, and special inducements are offered to persons who will start any permanent manufacturing industry. Tel., W. U. Exp., National and U. S. Henry Curran, postmaster.

# Self=Rocking Cradles

**ARRANGED WITH SPRING MOTOR,**

which by winding with a small crank rocks by itself and at the same time will fan the baby if wanted. Made of red oak in several handsome designs, nicely finished in Golden Oak.

It is the most desirable article for the busy mother and the grandest thing ever invented for the baby.

**Fully Endorsed by Physicians.**

Every Cradle is fully warranted and sold with a guarantee to give entire satisfaction to all users.

# SELF = WASHING MACHINES

A small motor does the work by itself, it is the only machine ever invented of its kind.

The motor is an entirely new discovery, it runs either by kerosene or gasoline burner, something like a burner in small family stove, which produces high pressure by drops of water forced in the generator. It is self-controlling, absolutely safe and very simple; any person can run this motor that knows how to light a common gasoline or kerosene stove burner. The motor requires no attention.

The washer is made to last for years, the tub is made of heavy galvanized steel which is revolving on a pointed spindle like a top, it makes a swift and complete revolution each way, and its washing principles cannot be equalled by any other machine on the market.

We also make separate motors of larger type and they are the cheapest, safest and most convenient to run all kinds of small and light machinery.

## STURGEON BAY.

Population, 4,000. The judicial seat of Door county, is an incorporated city located on the Ahnapee & Western Ry., 45 miles northeast of Green Bay and on an inlet of the same name, which, with a canal 1½ miles in length, connects Green Bay with Lake Michigan, thus shortening the passage from the south into Green Bay by 100 miles. The city was settled in 1850 and incorporated in 1883. It is lighted by electricity, has water works, a finely equipped fire department, excellent religious and educational advantages, 4 banks, and 2 weekly newspapers—the Advocate and Door County Democrat. There are extensive stone quarries, dry docks and shipyards, brewery, canning factories, flour, planing and saw mills, furniture factory, foundry and machine shop, etc. The Goodrich line of steamers touch here tri-weekly and the Hart line to Green Bay and all ports on Green Bay makes this port daily. Stages daily to Green Bay, Sister Bay and intermediate points and tri-weekly to Voseville, Graceport, Hainesville and to Algoma and intermediate points. Tel., W. U. Exp., U. S. Telephone connection. ## SUPERIOR.

Population, 40,000. The judicial seat of Douglas county, is advantageously located on the bays of Superior, St. Louis and Allouez at the mouth of the St. Louis and Nemadji rivers. It has commodious harborage for the fleets of the great lakes and the very largest boats on Lake Superior are consigned to its docks. New docks and terminal yards are to be built in the near future on account of the renewed prosperous condition of trade. It may not be generally known that the Superior-Duluth harbor stands third in point of tonnage received and shipped, New York and Philadelphia alone surpassing it. A large commercial trade has been established and its numerous warehouse and coal, merchandise and iron ore docks are busily employed in furnishing the west with supplies. The shipments of flour aggregated 2,000,000 barrels, iron ore shipments 4,000,000 tons and the coal receipts to 2,000,000 tons. There are 12 grain elevators here with a capacity of 19,500,000 bushels. Altogether, the lake commerce of Superior amounts to about 10,000,000 tons. The city is possessed og exceptional railroad facilities, the following lines radiating from it, and with their branches and connections, providing access to all parts of the United States; the C., St. P., M. & O. Ry., the N. P. R. R., W. C. Ry., C,, M. & St. P. Ry., D., S. S. & A. Ry. and the G. N. Ry. Two other roads are making surveys preparatory to building their lines to this city. It is 179 miles from Minneapolis, 152 miles from Eau Claire and just across the bay from Duluth, Minn., with which it is connected by street car, ferry boats and two railroad bridges. The Wisconsin Central Ry. enters the city via the N. P. R. R. from Ashland and the east, and the C., M. & St. P. Ry., from St. Paul over the same road. Superior embraces the plats of Superior, South Superior, West Superior, Allouez and Itasca. The postoffice is Superior with branches at East End, South End, Allouez and Itasca. The site of the city is one of the most beautiful and commanding of western cities, and it is laid out on a liberal scale, with broad streets and avenues lined with fine business blocks and manufacturing establishments, handsome residences, schools and churches. The city is lighted by electricity, has 35 miles of finely paved and macadamized streets, 140 miles of sidewalks, an excellent system of sewerage and water works, miles of street railway, an efficient and thoroughly equipped fire department, public halls, 2 theaters, public library of 15,000 volumes, excellent public schools, with an attendance of 6,700 pupils, colleges and academies, a state normal school, a board of trade, a commercial club, building and loan associations, first-class hotels, 3 hospitals, 5 banks, telephone exchanges, etc. The press has 2 dailies and 6 weeklies. Of churches there are: Baptist, 3; Catholic, 6; Congregational, 3; Episcopal, 2; Evangelical, 2; Hebrew, 1; Lutheran, 12; Methodist Episcopal, 9; Presbyterian, 2. The different secret and benevolent societies have a full representation, in addition to which are various other clubs and miscellaneous societies. There are numerous parks and squares handsomely laid out and maintained by liberal appropriations. In addition to the above accessories living is cheap, epidemics unknown, taxes are low, the means of protection to life and property are abundant and nothing left wanting nor untried that is necessary to the maintenance of the city's supremacy or the prosperity of the people. The federal government has purchased ground for the erection of a postoffice to cost in the neighborhood of $1,000,000. The growth of the city during the past ten years is worthy of note. The manufacturing interests include saw and planing mills, iron works, steel barge works—this plant works a force of about 1,200 men and is now enabled to build boats 550 feet long—boiler works, foundries, chair works, breweries, dry docks, coal and iron docks, cooperage works, flour mills, wind mill plant and many other industries employing labor in large and small numbers. The fishing interest is also an imporatnt industry. Exp., Adams, American, Great Northern, Northern Pacific, Southern, United States and Western. Tel., W. U. and North American and Postal. Kirby Thomas, postmaster.

Population, 2,500. An incorporated city located on the C., M. & St. P., and M., T. & W. Rys. (depots ¼ mile apart), at the junction of the Wisconsin, Tomahawk and Somo rivers, in Lincoln county, 23 miles north of Merrill, the judicial seat, 5½ south of Tomahawk Junction, on the M., St. P. & S. Ste. M. Ry., and 1 mile above the great Tomahawk dam, costing $350,000, the largest but one in the United States. It was platted in 1887 and incorporated as a city in 1891. It is well built up, is lighted by electricity, has fine, wide streets, direct pressure water works system, owned by the city, a paid fire department, churches of the Catholic, Congregational, Episcopal, German Lutheran and Methodist denominations, good schools, 2 banks and 2 live weekly newspapers, The Tomahawk and Tomahawk Leader. The Mitchell Hotel, erected by the Tomahawk Hotel Co., is one of the finest hotels in northern Wisconsin. The city is growing rapidly and it bids fair to be the most important point on the Wisconsin river. Splendid advantages are offered to manufacturers to locate here. Exp., Am. and U. S. Tel., W. U. Amos H. Woodworth, postmaster.

## WAUKESHA.

Population, 8,500. The judicial seat of Waukesha county, is an incorporated city located on the Little Fox river and on the C., M. & St. P., the C. & N. W. Rys. (depots ¾ mile apart), and the W. C. Ry. (depot ½ mile from other two), 17 miles west of Milwaukee and 102 from Chicago. The city is lighted by electricity and gas, has an excellent system of water works, a complete sewerage system, a thoroughly equipped fire department, an opera house, 2 banks and lodges of the various secret and benevolent societies. Among the chief interests of the city are its mineral springs, the healing properties of whose waters have brought Waukesha into world wide prominence and obtained for it the title of the "Saratoga of the West." The shipment of water has reached immense proportions. The first spring was discovered over fifty years ago. Within twenty years however numerous others have come into existence and ship water all over this country and Europe. In order to accommodate the immense throngs of visitors that come here during the summer months numerous and large hotels and boarding houses have been built. There are churches of the Baptist, Catholic, Congregational, Episcopal, Evangelical, Methodist, Free Methodist, German Reformed, Lutheran, Methodist Episcopal, and Presbyterian denominations. The city has a splendid system of public schools. The high school building erected in 1899, is one of the finest in the state. In addition to its public schools Waukesha is the seat of Carroll College, which was founded in 1848. The college has recently been endowed and the college building enlarged and improved. The college has both academic and collegiate departments. The State Industrial School for Boys is located here. The pupils are engaged in the manufacture of boots and shoes, socks, mittens, and the clothing worn by the inmates. There is a large farm in connection. Three progressive and ably edited newspapers—Dispatch, Freeman and Weekly Press, are published. In general lines of industry Waukesha is rapidly taking a position among the leading cities of the state. Three extensive steel companies give employment to a large number of men. One of the largest fruit canning establishments in the west is located here, while numerous smaller manufacturing institutions add their share to the industrial importance of the place. In its commercial buildings Waukesha is unique. Almost the entire business district is built of white limestone and in many instances with handsome granite facings, and this with the excellently paved streets, makes it one of the cleanest looking cities in the country. The city is connected with Milwaukee by electric railway. Telephone connection. Exp., Am., National and U. S. Tel., Postal and W. U. Arthur W. James, postmaster.

## WAUPACA.

Population, 3,600. An incorporated city and the judicial seat of Waupaca county, is located on the Waupaca river and on the Wisconsin Central Ry., 29 miles southeast of Stevens' Point, 130 northwest of Milwaukee, and 221 northeast of Chicago. The city is lighted by electricity, has water works, a well- equipped and efficient fire department, 8 churches, a fine public school system, telephone facilities, 2 banks, first-class hotels, flouring mill, planing mill, 2 starch factories, foundry and machine shop, and 3 weekly newspapers, the Post, the Record and the Republican. The city is situated in the center of the great Wisconsin poato belt, the shipments during the season from here being over one million bushels. The chain of lakes 3½ miles west of the city is one of Wisconsin's famed beauty spots, there being 16 lakes joined together. On their shores are hotels, numerous cottages and the Wisconsin Veterans' Home, which latter place is connected with the city—a distance of 5 miles—by electric railway. Three steamers make daily trips during the season and bass and pickerel fishing is excellent. Near these lakes are trout streams that are unexcelled. Four miles north of Waupaca is a fine deposit of granite. Waupaca is a popular summer resort, having ample hotel accommodations, the charges being reasonable. Tel., W. U. Exp., National. A. M. Penney, postmaster.

## WAUSAU.

Population, 14,000. An incorporated city and the judicial seat of Marathon county, is located on both banks of the Wisconsin river, near the geographical center of the state and on the C., M. & St. P. and C. & N. W. Rys. (depots ¾ mile apart), 35 miles north of Stevens Point, 157 northwest of Milwaukee and 100 west of Lake Michigan by way of Oconto and Sturgeon Bay. It is the commercial center of northern and western Wisconsin, and contains 8 large saw mills, while there are over fifty in the country adjacent to the city. Big Bull Falls, at this point of the river, affords an easily utilized and unlimited water power, the falls in the river being over 20 feet. The city is lighted by electricity, has water works, excellent sewerage system, thoroughly equipped fire department, telephone exchanges, 3 banks, 16 church edifices, a high and 8 ward schools and 2 business colleges. The press is represented by a daily newspaper, the Record; a semi-weekly, Der Deutsche Pioneer, and 5 weeklies, Central Wisconsin, Herald, Pilot, Record and Wochenblatt. Among the more prominent industries are foundries, a large paper mill, a sandpaper and flint factory, quartz mills, cash, door and blind factories, flouring mills, planing mills, box factories, excelsior works, picture frame molding works, tanneries, saw mill machinery works, veneer works, breweries, etc. Quarrying is extensively carried on. The shipments comprise the product of the various factories, together with lumber, lath, granite, railroad ties and tan bark. Tel., W. U. Exp., Am. and U. S. A. W. Trevitt, postmaster.

# POLK'S MEDICAL REGISTER ...AND DIRECTORY... OF NORTH AMERICA.

THE leading and progressive men in the medical profession regard POLK'S REGISTER and DIRECTORY as a standard book of reference which ought to be in every physician's library.

The Register is designed to so completely cover the medical directory field that further investment in that line will be unnecessary.

If you want to know the COLLEGE STANDING of the physicians you come in contact with, you will find it in the Register.

The Register will enable you to locate a LOST FRIEND if he is practicing anywhere in the United States.

List of Physicians and Surgeons, arranged by States, giving Postoffice Address, with Population and Location of each place.

The School practiced.

College and Class of Graduation.

All the Existing Medical Colleges in North America with Location, Faculty, etc.

All Extinct Medical Colleges.

The various Medical Societies, Medical Journals, Medical Libraries, Hospitals, Sanitariums, Asylums and other Medical Institutions.

Boards of Health.

Boards of Medical Examiners.

A Synopsis of the Laws regulating the Practice of Medicine in each State.

Medical Departments of the U. S. Army, Navy and Marine Hospital Service.

Roster of Examining Surgeons of the U. S. Pension Department.

Therapeutic Classification of American Health Resorts.

A Descriptive Sketch of each State and Territory and Province.

Climatological Statistics.

The Names and Location of Prominent Mineral Springs.

General Alphabetical list of Physicians, and reference to medical standing.

See that the name R. L. POLK & CO., is on the order before you sign it.

Beware of plagiarists and so called Medical Directories copied from Polk's.

# Milwaukee Solvay Coke

is a fuel of superior quality for manufacturing and household purposes. It is manufactured by a special process from coal selected for its coking properties, and is therefore hard, dense, high in fixed carbon, and low in ash and sulphur. It is crushed and screened into uniform sizes; Chestnut No. 2, Chestnut, Nut, Stove and Egg, corresponding to similar sizes in anthracite coal.

## For Manufacturing Purposes

For all kinds of shop work, welding, forges, etc., it is particularly valuable by reason of its low sulphur and good structure, and for bakers, confectioners, hotels, restaurants, heating of stores, halls or large buildings, it will prove a money saver.

## For Household Purposes

It can be used in any stove, range, grate or furnace equipped with grates for burning coal. It will not only hold fire over night if properly handled, but will furnish a steady, even heat all night, and leave a good live fire in the morning. It is clean and light to handle, absolutely smokeless and leaves very little ash. A fire with it is easily started and yet it will last as long, ton for ton, as hard coal and perform the same service

### Twenty Per Cent. Cheaper

Send for booklet explaining its manufacture and its advantages as a fuel.

# CELERY-FO-MO.

THE WORLD'S BRACER

HARMLESS, PLEASANT, MAGICAL

**Acts gently on the kidneys and bowels; raises gas from and sweetens the stomach; braces the nerves and clears the brain. Thus Headaches, Heartburn, Nervousness, Neuralgia, Sour Stomach and Indigestion are quickly cured and mental and physical exhaustion relieved.**

A harmless, common sense remedy, which includes the nerve toning properties of celery compounds and the best brain refreshing phosphates, which are combined in accordance with the most recent achievements in medical science.

## OUR RELIABLE GUARANTEE.

**Should a purchaser of Celery-Fo-mo find it unsatisfactory in any particular, or not exactly as represented, he is authorized to return same to any druggist and receive money back in full.**

### THIS UNQUALIFIED OFFER

**Has stood ever since this wonderful preparation was placed on the market, and not a single bottle has been returned.**

**This certainly is the greatest endorsement a preparation can receive and should justify you in giving it a trial.**

Celery-Fo-mo is not like the dangerous headache powders, containing stupefying drugs, which produce dangerous after symptoms. Contains no Bromo Potash, no Chloral, no Cocaine, no Antipyrine, no Opium, no Morphine.

**Sold Everywhere in 10c., 25c., 50c. and $1.00 Bottles.**

# Flour Mill and Grain Directory
## OF THE UNITED STATES AND CANADA.

NUMEROUS inquiries for a complete and reliable Directory of Flour Mills and Grain Dealers of the United States and Canada have induced us to utilize our unequaled facilities in the compilation of the work. Among the more important features are

**List of all Mills, U. S. and Canada—capacity of each.**
**Kind of Power Used.**
**List of Cereal Mills—Buckwheat, Rye, Barley, Etc.**
**Grain Elevators.**
**Grain Brokers and Commission.**
**Grain Buyers and Shippers.**
**Flour Exporters.**
**European Flour Importers.**
**Wholesale Flour Merchants, U. S. and Europe.**
**Wholesale Bakeries.**
**Mill Supplies.**
**Mill Machinery Manufacturers.**

It is replete with information valuable and of interest to the Practical Miller, the Grain Dealer, the Machinery Manufacturer, and to all either directly or indirectly interested in milling grain or allied trades.

**A COAL SAVER**

**ABSOLUTELY DUSTLESS**

**SIMPLE IN CONSTRUCTION**

**DURABLE**

THE

# Invisible-Ash-Sieve & Ash Box

## COMBINED

Not 2 Pieces but ONE built so that it can be used as a sifter and Ash Box with one operation.

Being entirely dustless it can be placed in the basement or the shed, thereby doing away with the standing in the cold, rain or snow to sift the ashes.

It is easy to operate, rids the good coal of ashes quickly and satisfactorily.

Can't rust—made of galvanized Iron. Size No. 1 has square top. No. 2 and No. 3 have top same as cut.

# POLK'S
# DENTAL REGISTER
## and DIRECTORY.

**IT IS A FACT** that the leading and progressive men in the dental profession regard the **REGISTER** as a standard book of reference which ought to be in every dentist's library.

The Register is designed to so completely cover the dental directory field that further investment in that line will be unnecessary.

If you want to know the **COLLEGE STANDING** of the dentists you come in contact with, you will find it in the Register.

The **INDEX TO DENTISTS** in the Register will enable you to locate a **LOST FRIEND** if he is practicing anywhere in the United States.

List of Dentists arranged by States, giving Postoffice Address, with Population and Location of each place.

College and Class of Graduation.

All the Existing and Extinct Dental Colleges in the United States and Canada, with Location, Faculty, etc., arranged by States and Provinces.

Auxiliary and Post Graduate Institutions and Courses.

Dental Colleges in the United States and Canada arranged Alphabetically by Name.

Classified Directory of Business Pertaining to the Dental Profession.

The various National, Interstate, State and Local Dental Societies, Dental Journals, Boards of Dental Examiners, and other Dental Institutions.

The full text of the Laws for regulating the Practice of Dentistry in each State and Province.

Dental Department of the U. S. Army.

A Descriptive Sketch of each State and Territory and Province.

General Alphabetical list of Dentists, and reference to dental standing.
